

A 1 year intensive cutting mixture to provide high yielding swards

A 1 year intensive cutting mixture to provide high yielding swards. Sown in the spring Westerwold will provide at least two cuts in its harvest year.

- Sprinter produces rapid growth and high yields
- Frost free sites are essential for autumn sown crops as westerwold is not noted for winter hardiness
- Rapid regrowth after cutting
- Responds to high inputs of fertiliser
- Good resistance to mildew and rhynchosporium
