

Moderate resistance to Club Root

Marian is a medium dry matter variety with moderate resistance to club root.

It is a dual purpose variety suitable for fodder and culinary use with yellow coloured flesh and purple skin.

Pack Size		Treatment
Natural Seed	1kg	Start-up + Sepiret
Graded Seed	0.5kg	Start-up + Sepiret

Stock should be introduced gradually over a two week period and an area of grassland should be available for animals to return to; water and hay or straw should also be made available. Please contact your supplier for further guidance.
